

Beniversal® ID Theft Services

MONITOR. REPLACE. REPAIR.

Protecting your identity can be a challenge and really goes beyond guarding your data. BUT, Benefit Resource has a solution for you. Through our partnership with Mastercard International, each Beniversal® or eTRAC® Prepaid Mastercard® cardholder receives FREE comprehensive ID Theft Services.

DON'T WAIT UNTIL YOUR IDENTITY HAS BEEN COMPROMISED TO PROTECT YOURSELF.

It seems that every time we turn around, open our mail or read our email, we are being notified of yet another security breach in which personal information has been compromised. In the past, you could protect yourself against ID theft by protecting your physical credit cards and making sure your incoming and outgoing mail were secure. Today, ID theft is done through sophisticated technology and often targets the data sources themselves to affect millions of individuals at a time.

Have confidence for the future by taking steps to prevent exposure of sensitive data and actively monitoring against breaches. Even if identity theft occurs, you'll have the support you need to replace and repair your identity.

FOR QUESTIONS, PLEASE CONTACT PARTICIPANT SERVICES

Participant Services is available to assist with your questions by phone, email and live chat. Both English- and Spanish-speaking representatives are available.

 (800) 473-9595 (M - F, 8am - 8pm (ET))

 ParticipantServices@BenefitResource.com

HOW IT WORKS

1. MONITOR: THEFT ALERTS

Alerts individuals of possible compromise of personal credit or debit card, social security number, driver's license and other personal information.

2. REPLACE: EMERGENCY WALLET REPLACEMENT

Create a virtual wallet to assist with replacing cards and documents that are lost, stolen or compromised (includes all major card brands).

3. REPAIR: ACCESS TO CERTIFIED RESOLUTION SPECIALISTS

Experts guide individuals through the process of notifying the major credit reporting agencies, cancelling and replacing cards, and assisting with paperwork to alert various parties of potential fraud.

GET STARTED

Visit [mastercardus.idprotectiononline.com](https://www.mastercardus.idprotectiononline.com) and enter the first 6 digits of your card. You determine what information, cards, and accounts you want to have monitored.
